He jobbed his job, took and placed his check on the counter, his mouth watering in sight of glory. But alas! the order read: "give this gentleman all he pays for."

W. S. Humphrey means business every time, and does with energy and success whatever he does. The French glass globe has ground into it the name G. W. Miner, surrounded with a wreath; also a perfect picture of the Messenger on the waves appears opposite.

Henry J. Miner has decided upon an important step that will greatly benefit all who want clothes, gents' furnishing goods, trunks, valises, hats, caps, etc. He has determined to close the entire stock at once, at figures that will enable anyone to buy at a bargain. Now is the time to strike him while he is in the humor, if you want a suit of clothes for less than half price.

An exchange very wily remarks: It certainly is very funny to hear a man howling about patronizing home industries, when he uses a rubber stamp to make the most horrid dubs of letter heads and cards with which nice paper is spoiled, or patronizes some cheap amateur who does him a job for a trifle over nothing. Many men's ideas of patronizing home industries are for everybody else to do it.

Allegan is in ruins. Every business house in the place, except the Chaffee block and Peck's bank, was destroyed by fire between 11 o'clock and 3—midday. But little over three hours was required for the flames to lick up three entire blocks and part of a fourth. The total loss is about \$350,000, which is below rather than above the actual figures. The insurance is anywhere from \$140,000 to \$175,000. On the 12th Grand Rapids lost \$150,000 by fire; one third insured.

The Cheboygan Democrat in its issue of March 13th says: "Four columns of local on the inside." The outside of the paper must have been printed first, and a rush of news expected for the other side which apparently did not arrive, as we perused that part thoroughly, and were unable to find more than two columns of local. Yet perhaps our views differ in regard to the word "local." When we say local we mean something pertaining to our city or town, or immediate vicinity. Give us your views, brother.—St. Ignace Free Press.

"I look for a good season for vessel men" said a well known vessel owner on Saturday, "and I think boats will make more money than they did last year. There is now more grain in Chicago than there ever was before. The lumber centers are crowded with stock that will have to go forward when navigation opens. The wharves at Cleveland are almost bare of iron ore, and it is said that at the opening of navigation there will be scarcely a ton of ore at the furnaces. Last spring the furnaces were well stocked when navigation opened. There is also about double the amount of coal to be shipped this year, and, taking all things into consideration, I don't see why vessel men should feel any alarm about the coming season."
